JiffyDOS

Increase Speed Up to 1500% while retaining 100% compatibility

- Speeds up Loading, Saving, Verifying, Formatting and Reading/Writing of Program, Sequential, User and Relative files unlike cartridges which only speed up Loading and Saving of PRG files
- Built-in DOS Wedge plus 17 additional features including file copier, text dump, printer toggle, and redefinable function keys make using your computer easier and more convenient
- ROM upgrade installs easily into most computers and disk drives. Supports C-64, 64C, SX-64, C-128, 128-D, 1541, 1541C, 1541-

FD Series

3.2 and 1.6 MB 3.5" Floppy Drives

The FD-2000 and FD-4000 disk drives utilize today's latest 3.5 inch disk drive technology. FD-2000's support 800K (1581 style) and 1.6 MB (High Density) formats, while the FD-4000 also offers support for the 3.2 MB (Enhanced Density) disk format. Fast and reliable, they support 1541, 1571 and 1581 style partitions, Native Mode partitioning and can actually read and write 1581 disks. FD's feature built-in JiffyDOS, SWAP button and optional Real Time Clock. High capacity, speed and compatibility make the FD right for every application, including GEOS.

RAMLink

Power-Backed Expandable REU

The fastest possible form of storage, RAMLink provides instant access to files and retains data while your computer is turned off. Easy to use and expandable up to 16 MB, RAMLink utilizes the same powerful operating system found in CMD Hard Drives. Unlike Commodore REU's which are compatible with less than 1% of commercial software, RAMLink supports more than 80% of the commercial titles. RAMLink also offers built-in JiffyDOS Kernel, SWAP feature, reset button, enable/disable switch, pass-thru port and RAM port for REU/GEORAM use. RAMLink offers maximum speed, expandability and compatibility with all types of software and hardware including GEOS.

HD Series

SCSI Hard Drive for the C-64/128

HD Series Hard Drives are available in capacities up to 1 GB, are fully partitionable, and can emulate 1541, 1571, & 1581 disks while Native partitions utilize MSDOS-style subdirectories. HD's connect easily to the serial bus or parallel via RAMLink. Includes built-in JiffyDOS, SWAP feature and RTC. HD's offer superior compatibility with most commercial software including BBS, Productivity and GEOS. And with new pricing, HD Series drives offer the lowest cost per megabyte of any C64/128 storage device.

Shipping and Handling Charges

Use the chart below to match your order subtotal with your shipping zone and method.

Order Subtotal	Continental United States					
	UPS Ground	2nd Day	Next Day	AK HI, PR	Canada	Foreign
\$0.01 - \$19.99	\$3.00	\$8.00	\$17.00	\$12.00	\$5.00	\$15.00
\$20.00-\$29.99	\$5.00	\$9.00	\$18.00	\$14.00	\$7.00	\$20.00
\$30.00-\$59.99	\$6.00	\$10.00	\$20.00	\$15.00	\$9.00	\$25.00
\$60.00-\$149.99	\$8.00	\$12.00	\$23.00	\$19.00	\$12.00	\$35.00
\$150.00-\$299.99	\$10.00	\$14.00	\$27.00	\$21.00	\$20.00	\$50.00
\$300.00-\$799.99	\$15.00	\$20.00	\$34.00	\$27.00	\$25.00	\$65.00
\$800.00 +	\$20.00	\$25.00	\$40.00	\$32.00	\$35.00	\$80.00

UPS C.O.D. add \$5.00 (U.S./PR only)

Payment and Delivery: CMD accepts MC, Visa, Money Orders, COD and Personal Checks. Personal Checks are held for up to 3 weeks. Most items are stock, contact CMD for current delivery schedules. Returns for merchandise credit only within 30 days with prior authorizations. All prices and specifications are subject to change without notice.

CMD Releases Revolutionary New Mouse

Hickory-Dickory-Dock, SmartMouse has got a Clock!

For years, Commodore set the standard with the 1351 Mouse. Now CMD has set a new standard with the SmartMouse. Guaranteed 100% 1351 compatible, the SmartMouse does everything the C-1351 does and more! This highly-intelligent, three button mouse includes a built-in battery-backed Real-Time Clock, and a double-click feature for GEOS. Plus, it comes with a complete set of utilities, including: Auto-exec for setting the GEOS clock, a utility for setting the mouse clock from GEOS, and BASIC utilities for setting the clock and displaying time and date on screen. In addition to new features, the SmartMouse's ergonomic design makes it lighter, smoother and smaller than its outdated counterpart. So, if your old mouse is losing the rat-race, get out of that trap with SmartMouse!

What Makes the SmartMouse the BEST C-64/128 Mouse Ever...

- Three buttons means convenience! If you're a GEOS user, the left button is configured as single click, the right as a handy double click and the center button is the TURBO button. When depressed, it doubles the speed at which the mouse moves across the screen. Additionally, programmers can assign their own functions to all three of the SmartMouse buttons.
- Unlike other third party mice, the CMD SmartMouse uses the same custom gate array chip as the Commodore C-1351 mouse. This guarantees 100% compatibility with existing software and hardware.
- Switches easily into joystick emulation mode on power-up by holding down the right button.
- SmartMouse utilizes the same advanced mouse technology used in today's powerful 486 and Pentium-based PC's, providing you with unparalleled accuracy and smoothness of operation.
- Built-in battery-backed Real-Time Clock automatically sets the GEOS clock, displays time and can be used in your own programs.
- SmartMouse is supplied with utilities disk and detailed manual explaining the utilities and programming information.
- Attention Lefties! You're going love the SmartMouse! With a simple modification outlined in the manual, you can alter the SmartMouse for left handed use. (Or for a small fee CMD will customize your mouse for you).
- Built-in Configuration RAM allows for future enhancements.

CMD 2+1 Cartridge Port Expander

Previously produced by Skyles Electric Works and recently acquired by CMD, the 2+1 Cartridge Port Expander provides two vertical and one horizontal expansion ports for the C64 and C128. Each port is equipped with four individual switches to control the +5, GAME, EXROM and ROML signal lines for utmost flexibility and compatibility. This tried and true system has been helping Commodore users get the most from their computers for years. For extra safety, the 2+1 is fuse protected and provides a convenient reset switch.

The 2+1 is great for using SwiftLink, SID Symphony, Super Snapshot, REU's, GEORAM or almost any other cartridge that you may have. By using the 2+1, you eliminate wear and tear on your computer's cartridge port caused by frequent use. Contact CMD for more information regarding compatibility and applications for the 2+1 cartridge.
